A LITTLE THEOLOGY 'THE BODY'

The theology of the body is a comprehensive teaching by pope John Paul on the meaning of human personhood, relationship and sexuality. It explores how are bodies are not just physical shells, but visible signs that reveal divine, spiritual mysteries. The body reveals God this is the central tenet of the teaching, the human body has the unique ability to make visible the invisible spiritual and divine realities. John Paul taught that humans are made for self-giving love, not self-getting. We find true fulfilment not by using others for our own pleasure, but by making a total gift of ourselves to God and others. To understand the divine design of the human body the pope explores the human experiences across 3 distinct eras, our origin before the fall, the state of humanity after the fall and lastly our ultimate destiny with God.
